

## Delivering Value

We deliver great stuff! We're proud of it and our stakeholders are really happy.

We deliver crap. We feel ashamed to deliver it. Our stakeholders hate us.

## Easy to release

Releasing is simple, safe, painless and mostly automated.

Releasing is risky, painful, lots of manual work and takes forever.

## Fun

We love going to work and have great fun working together!

Booooooring...

## Health of Codebase

We're proud of the quality of our code! It is clean, easy to read and has great test coverage.

Our code is a pile of dung and technical debt is raging out of control.

## Learning

We're learning lots of interesting stuff all the time!

We never have time to learn anything.

CC-BY-SA-3.0-FR Ajiro.fr, version: v1

## Mission

We know exactly why we are here and we're really excited about it!

We have no idea why we are here, there's no high lever picture or focus. Our so called mission is completely unclear and uninspiring.

## Pawns or Players

We are in control of our own destiny! We decide what to build and how to build it.

We are just pawns in a game of chess with no influence over what we build or how we build it.

CC-BY-SA-3.0-FR Ajiro.fr, version: v1

## Speed

We get stuff done really quickly! No waiting and no delays.

We never seem to get anything done. We keep getting stuck or interrupted. Stories keep getting stuck on dependencies.

The image consists of a dense, diagonal grid of the word "Ajro" repeated in a stylized, cursive font. The text is oriented at approximately a 45-degree angle from the bottom-left to the top-right. Each instance of "Ajro" is composed of two colors: a red "ا" and a teal "جرو". The letters are slightly slanted, giving the impression of motion or a dynamic, woven texture.

## Suitable Process

Our way of working fits us perfectly!

Our way of working sucks!

## Support

We always get great support and help when we ask for it!

We keep getting stuck because we can't get the support and help that we ask for.

## Teamwork

We are a totally gelled super-team with awesome collaboration!

We are a bunch of individuals that neither know nor care about what the other people in the squad are doing.
